## PROFILE

I'm a junior programmer with several years of experience. I really like programming because with it I can put ideas into an application. I can work individually or in a team because I've previously joined organization and startup to develop software together with the team.

## SKILLS

Programming

- PHP & JavaScript
- MySQL and MongoDB
- NodeJS & TypeScript
- HTML & CSS
- Java & Kotlin

Others

- Linux
- RESTful API
- Software Design Pattern

## EXPERIENCES

### BACKEND ENGINEER

Degovan

2019 - 2025

- Integrate application with 3rd party software
- Create REST API application & apply authentication
- Maintain server & implement CI/CD

### BACKEND DEVELOPER

Kreasi Cyber

2023 - 2024

- Develop RESTful payment gateway application
- Built software and implement design pattern

## EDUCATIONS
